General objective

To increase the competitiveness of the economic agents carrying out an activity in fields like the textile industry, knitwear goods, ready-made clothes, leather goods industry and footwear industry.

Aim

To become a strong social partner and to play a constructive role in the communication with the decision makers in the Government by representing and promoting the interests of business people and economic agents working in fields like the textile industry, ready-made clothes, knitwear goods, leather goods and footwear industry.

We aim at contributing to the design and implementation of a coherent national policy on the economic environment that is necessary for the sustainable development of Romania.

Mission

To influence the Romanian legislative and political environment in order to develop the businesses in the textile and leather goods industries by promoting the concept of "free enterprise" and by increasing the competitiveness of economic agents starting from an equal treatment of all the members. We also want to create solidarity of all the members (regardless of the ownership status) in order to protect their mutual interests without affecting the competition on the products, services and labor market.

Goals

- To represent the members' interests in their relation with trade unions, political parties, authorities, national and international institutions, etc.
- To promote in Romania and abroad the interests of the business people who carry out activities in fields like textiles, ready-made clothes, leather goods and footwear.
- To participate in the dialogue between Government, trade unions and employers in the strategic decision-making process for the reconstruction of Romanian economy.
- To stimulate competitive advantage based on the management by costs or the differentiation of one's products from those of one's competitors.
- To provide necessary information to its members (from inside and from outside).
- To organize exchanges of information and other collective activities.
- To deliver services: training, consulting, assistance in fields like labor legislation, social legislation (insurances), labor strategy (salaries, flexible working hours, etc.) and the organization of fairs and exhibitions.

Organizational Structure

The Central council is made up of 9 members:

Prim Vice-President: Mihai PASCULESCU

Adress: 27-29 George Enescu street, floor 4, room 7,
district 1, Bucharest

TEXTILE

HH TEXTILE MANUFACTURING is a Romanian company with a tradition of over 20 years in manufacturing garments for women and children, the experience and professionalism of our team being materialized in long-term partnerships with important foreign clients.

We represent a one stop source for any client in garments industry because we provide all services that gets a collection from idea to the racks of the stores:

- pattern making
- grading
- prototype, SMS sample, production sample
- production
- packaging
- shipping

We also offer a ready-made collection as a white label or a starting point for client's own collections.

Our main strong points are:

- Highly skilled staff
- Modern equipment
- Rapid response to customer requests
- High level of quality in execution
- Flexibility and adaptability of the technology to customer requirements
- Long-lasting experience with demanding customers

We produce women wear and children wear, such as: dresses, skirts, blouses, jackets, pants, made from light weight and medium weight fabrics. One of our special skills is the experience in producing "flou" garments (garments made from silks and fine, thin fabrics)

Our current capacity is about 15 000 products per month depending on the complexity of the model and type of fabric.

We don't have minimums; we can produce from one piece/model to 15000 products/month.

On the international market some of our clients are: Italy (Max Mara group, Benetton Group, Derek Lam), France (Servimpex, Eliane), UK (Denelly), Germany (Quelle, Kubach Rubies), Portugal (Filobranca), USA (Generation One), Spain (Analogias).

HH TEXTILE has its business headquarters in Bucharest in order to ensure continuous and easy communication with customers, and management and production departments in the city of Pascani, Iasi County. The company currently has 100 employees.

Kasiova

KASIOVA Company was founded in 1992. It is specialized in producing hand-knitting for men, women and children.

KASIOVA creates and promotes its own brand, but it can work after customer required models too or in collaboration with customers. Qualified staff can execute on customer request, unique samples, high or low range products.

Our clients are large companies from France, England, Germany, Italy, Canada, but we have good cooperation with smaller enterprises in development.

The company developed with small but sure steps, with respect for our customers.

It will soon move into a new building where 80 employees (full-time) can hand-knit. Also, 200 employees (part-time) can work at home.

We currently have a production capacity of 1000-1500 pieces per month, depending on the complexity of models.

The principles that guide our work are:

- we combine the classic and the tradition, the traditional and the modern;
- a machine can not do what we do;
- hand-knitted products mean: **UNIQUE, STYLISH, MODERN!**

Katty Fashion

KF was founded in 2003 and it was set up to provide quality garments for the high street labels from UK and other European countries on CMT and FPP (Full package production) basis. In the same time we are supplying the more expensive and higher quality spectrum of labels.

We are producing the whole range of women wear: Blouses, tops, shirts, dresses, skirts from woven or jersey fabrics.

We provide also garments which requires further treatments as dyeing, washing or special finishes.

Our services include design, pattern making, prototypes, technical and quality control for textile industry.

Katty Fashion Company was designed to produce collections and to work in lohn system, CMT or FOB, clothing for famous brands on the market in the UK, France, Italy, Sweden, Germany, USA and beyond. Meanwhile we provide a wide range of services that include the creation, prototype development, technical advice and high quality control of products, depending on each client. We manufacture a full range of women's clothing: blouses, tops, skirts, dresses, suits, trousers, using in manufacturing woven or knitted. We are specialized in producing items that require special treatments such as dyeing and washing products made and other special finishing usually treatments, with a capacity of 5000 pcs. / month.

With strong ties to the local Technical University of Iasi, selected textile graduates join Katty Fashion, continuing the progression of the company and the careers of talented students. With an EEC funded application in the last stages of approval, in 2016 KF plans to build a new Eco factory to continue to realise the same vision as set out in 2003; to build for a sustainable future.

KF is committed to achieving the best results, principles whilst maintaining the highest ethical standards. Our priority is to provide a highly professional service and ultimate care in manufacture to assist our clients in the creation of the most beautiful garments.

With fine tuned work procedures in place built on many years of experience we see it is our responsibility to communicate good and bad, to speak openly to enable the best results.

Katty Fashion is Sedex audited and a member of the Ethical Fashion Forum. We are a small factory with the mind to continue to grow in a steady, sustainable manner to create and maintain long term, mutually beneficial relationships.
